

# Education

2024

B.Tech in CSE with CGPA: 8.1/10  
Completed 8th semester  
Dayananda Sagar University

# Skills

- **Front-end-technologies:** HTML , JavaScript , CSS , React.JS.
- **Back-end-technologies:** Mysql , Node.js , Express.js, MongoDB.
- **Python - ML**
- **Computer Networking**
- **AWS**

# Programming Language

- Javascript
- python

# Soft Skills

- Communication
- Creativity
- Confidence
- Active listening
- Teamwork

# Certificates

**2021** Artificial Intelligence with Python from 05th Jul, 2021 to 26th Aug, 2021.

**2023** Successfully passed the examination for Applications & Use Cases Professional Certification-Rapidminer-certificate.

**2024** Computer Networking Certification, Great Learning Academy, Online Completed in July 2024.

# Neeraj Subramani

I am a recent graduate with strong skills in the MERN stack (MongoDB, Express.js, React.js, Node.js) and a solid understanding of JavaScript. I also have knowledge of Python and basic experience with Machine Learning. Additionally, I am familiar with DevOps tools like AWS, cloud computing, and GitHub. I am passionate about building user-friendly web applications and exploring ways to integrate AI and data-driven technologies into web development to create innovative solutions that enhance user experiences.

# Projects

## Course Website Landing Page - HTML , TailwindCSS

- Designed a landing page for course website using HTML and Tailwind CSS.
- Ensured a fully responsive layout for optimal viewing on all devices.
- Focused on intuitive navigation to enhance user interaction and engagement.

## Fake Store Website - React , TailwindCSS

- Fetches products from the Fake Store API..
- Displays products with key information on the main page.
- Allows users to add products to a cart.
- Enables users to manage cart items (quantity, removal).
- Calculates and displays total price with a discount.

## Portfolio Website - React , TailwindCSS

- Frontend Development: Built using React.js for a dynamic and interactive user experience.
- Styling & UI: Designed with Tailwind CSS, external CSS, and inline styles for a professional look.
- Navigation System: Implemented a sidebar with active state highlighting for seamless navigation.
- Project & Skills Showcase: Displayed key skills, projects, and contact details in a structured layout.
- Deployment: Hosted on Vercel for fast performance and accessibility.

## Flight Booking and Reservation System - MERN

- Full-Stack Development: Developed flight booking system using MERN stack and JWT for secure user authentication and data management.
- Flight Search and Booking: Integrated Amadeus API for real-time flight search functionality.
- Payment Integration: Implemented Stripe for secure credit/debit card payment processing.
- Booking Management and Notifications: Created booking management features with Nodemailer for confirmations , you can view booking in Dashboard.
- User Interface: Designed responsive UI using Tailwind CSS for enhanced navigation.

# Internship

**Data Scientist Intern | Nandi Toyota | Feb 27, 2024 - May 5, 2024**

Developed predictive models using Python and machine learning algorithms, enhanced skills in SQL, Excel, and completed hands-on assignments during the internship.

**Web Developer Intern | BhumiNetworks LLP | SEP 26 , 2024 - FEB ,2025**

Developed a Portfolio Management System (PMS) for stock alerts, trade calls, and price tracking. Created data visualizations using Python and applied linear regression for trend analysis. Delivered an intuitive solution that improved portfolio tracking and client decision-making.
